<i>List of figures</i>	5
<i>Preface</i>	6
<i>Key events in the life of Félix Tisserand</i>	7
1. François Félix Tisserand of Nuits-Saint-Georges.	9
2. Tisserand the person	10
2.1 Early life 1845-1863	10
2.2 Studies and initial appointment at the Paris Observatory	11
2.3 Family life	17
3. Félix Tisserand the teacher	18
3.1 Tisserand – mentor and friend	19
4. Tisserand the astronomer	21
4.1 Scientific expeditions	22
4.2 Voyage to Malacca (solar eclipse, 1868)	23
4.3 Voyage to Japan (transit of Venus, 1874)	25
4.4 Expedition to Martinique (transit of Venus, 1882)	30
4.5 Director of the Toulouse Observatory, 1873	32
4.5.1 Equipment at the Toulouse Observatory	34
4.5.2 Diaries of Charles Piazzi Smyth	35
4.5.3 Directors of the Toulouse Observatory	38
4.6 Appointment to Bureau de Longitudes, 1878	39
4.7 <i>Traité de mécanique céleste</i>	40
4.8 Tisserand criterion	42
4.9 Director of the Paris Observatory, 1892-96	43
4.10 An untimely and unexpected death	45
4.11 Professional and international recognition	45
4.12 The legacy of a remarkable man	47
4.13 Tisserand’s asteroid	48
4.14 Tisserand’s crater	49
<i>Post-script</i>	50

Appendices

1) Family tree	51
2) Tisserand's publications	54
Published books	54
Annales de l'Observatoire de Paris	55
Bulletin Astronomique	56
Annuaire du Bureau des Longitudes	57
Annales de l'Observatoire astronomique de Toulouse	58
Les Comptes rendus de l'Académie des Sciences	59
3) Correspondence between Tisserand and Poincaré	60
4) Mathematics of the Tisserand criterion	62
5) Obituary of Félix Tisserand	69
6) What is Celestial Mechanics?	70
<i>References, bibliography and recommended further reading</i>	72
<i>Photographs and Image Credits</i>	75
Index	78

List of figures

- Figure 1 Félix Tisserand – Directeur de l’Observatoire Paris
- Figure 2 Paris Observatory, 1855
- Figure 3 Urbain Le Verrier ~1846
- Figure 4 Edouard Stephan.
- Figure 5 Jules Janssen (1824 – 1907)
- Figure 6 Transit of Venus,
- Figure 7 Henri Poincaré (1854 – 1912)
- Figure 8 Transit of Venus, 1882 (David Todd 1855 – 1939)
- Figure 9 Guillaume Bigourdan
- Figure 10 Joseph Perrotin
- Figure 11 The Paris Observatory in 1908
- Figure 12 Tisserand crater adjacent to Mare Crisium
- Figure 13 Tisserand crater (seen from Apollo 17)
- Figure 14 Comet C/2013 A1 showing nebulosity
- Figure 15 Tisserand’s memorial at Nuits-Saint-Georges.
- Figure 16 The Church at Gerland (2016)
- Figure 17 The Paris Observatory Equatorial refractor, 1870
- Figure 18 The Toulouse Observatory in 2016
- Figure 19 Solar Parallax
- Figure 20 Tisserand’s birthplace
- Figure 21 Nuits-Saint-Georges
